

WE MAKE BOXES.

PowerWallPlus™

Large & Medium
Boxes

Double Wall Board with High Performance Birch Medium

Extra large boxes, such as pallet bins, are often the greatest focus for heavy duty materials. However, there are many applications where smaller boxes require strength beyond what conventional materials may offer. Acme's **PowerWall Plus™** has often provided effective solutions replacing triple wall, eliminating load bearing inserts, and even substituting for wood in some cases.

PowerWall Plus™ Technical Details:

- Tests at greater than 100 ECT
- Compression strength of 2,500 lbs. or more for medium to large box sizes
- Exceptional rigidity and flat crush rating
- Burst Resistant
- Available in either Kraft or White

The Manufacturing Day Mission

"Manufacturing Day addresses common misconceptions about manufacturing by giving manufacturers an opportunity to open their doors and show, in a coordinated effort, what manufacturing is — and what it isn't. By working together during and after MFG DAY, manufacturers will begin to address the skilled labor shortage they face, connect with future generations, take charge of the public image of manufacturing, and ensure the ongoing prosperity of the whole industry."
