Established 1918*

**WE MAKE BOXES.**

Acme Corrugated Box was proud to be an  
**OFFICIAL SPONSOR OF PRESTON & STEVE'S  
CARDBOARD CLASSIC 2019**

**WE MAKE MORE THAN BOXES**

Acme's Design Team  
John Wilson and Steve Hirschbuhl

The life-size trophies awarded at **WMMR's Preston and Steve Cardboard Classic**, on March 1st at Jack Frost Mountain, were created and built by *Acme's own in-house Design Team*.

Steve Hirschbuhl and John Wilson created the concept for the trophies and built them using Acme's corrugated board and, for an added touch, mini LED lights were placed in the cut-outs for illumination.

Steve and John brought these trophies to life by using the latest in design technology, the Kongsberg cutting table. This cutting table interfaces with state-of-the-art computer software allowing a computer generated design to be cut with precision on the Kongsberg. This technology allows Acme to meet our client's ever changing packaging needs.

Steve has been in the packaging industry for over 30 years and has been an Acme Team member for eight years. John graduated from R.I.T earning a degree in Packaging Science and has been with Acme for seven years.
